October 25, 2017

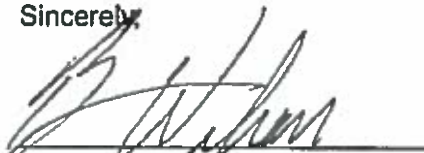

Dear Parents/Guardians,

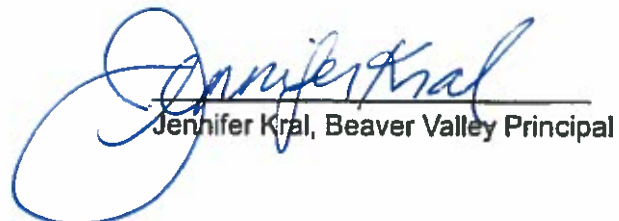

We are constantly working toward improving our schools. A significant piece of that is ensuring that we are updating our curriculum and aligning with Colorado state standards and expectations. To that end, we are engaged in a comprehensive process that will address any gaps in our instruction, provide a scope and sequence that better mirrors the assessments our students are required to complete, as well as introduces additional best teaching practices to our staff. In order to accomplish this task, we have contracted with consultants to provide expertise and guidance through the process. Due to the complexities of the process and the immediate need to address these issues district-wide, we need additional time for our teachers and staff to complete the process. To facilitate this process we will need to **cancel school for our Beaver Valley students on November 10, 2017.**

This is not a determination that was made without consideration of alternatives. We apologize for any inconvenience this may cause and are attempting to provide you with enough notice to make the necessary adjustments in your family schedules and planning. **Classes will be held as usual for our Middle School and High School as well as for our Pre-School, 1st, and 2nd graders (No Kindergarten classes per an earlier decision regarding training for our Kindergarten teachers in Sterling).**

Thank you in advance for your understanding and flexibility.

Sincerely,

  
Bill Wilson, Superintendent

  
Jennifer Kral, Beaver Valley Principal

*Making a difference in our world...student-by-student*
